README.md

```
# Balaji Custom Flavor Maker
```

A Design Thinking project where users can create their own custom Balaji Wafers flavour, AI-generated description, custom packet, add-to-cart, and home delivery.

```
## 📊 Features
```

- AI generated flavour descriptions
- Colour-changing packaging preview
- Custom packet display
- Add to cart system
- Home delivery form
- Stylish UI

```
## 📁 Project Structure
```

- index.html - Main UI
- style.css - Website design
- script.js - All functionality
- assets/ - images

```
## 🛡️ Live Demo
```

(You can host using GitHub Pages)

```
## 📦 Installation
```

Just open index.html in any browser.

Want me to **create a zip file** containing all these files so you can directly upload to GitHub?
